

Excursion Risk Assessment and Management

Ultimate Family Entertainment Centre

Approved providers, nominated supervisors and family day care educators must ensure a risk assessment is carried out before children are taken outside the service premises on an excursion. Prior authorisation must also be obtained from parents or other authorised nominees.

ACECQA has prepared this template to assist services in undertaking risk assessments before children leave the service premises as part of an excursion, which services may wish to incorporate within their own risk assessment material.

Regulation 101 of the Education and Care Services National Regulations includes the minimum risk assessment considerations for excursions, including specific considerations when an excursion involves transporting children.

Note: A risk assessment is only required to be completed at least once for a 12 month period if the excursion is a *'regular outing**'.

*Regular outing: means a walk, drive or trip to and from a destination that the service visits regularly as part of its educational program, and where the circumstances relevant to the risk assessment are substantially the same on each outing.
